

## A step-by-step guide to downloading audiobooks to a portable device such as an iPod or MP3 player.

- Log on to our website, [www.listening-books.org.uk](http://www.listening-books.org.uk), with your username and password, which you will find in your welcome letter.
- Click on the 'Downloadable' box. Search the catalogue for your favourite authors or titles and click on the text to view the details details (titles available to download have this symbol ).
- Once you have decided which audiobook you would like to listen to, click on this symbol . You will then be taken to this audiobook on the Listening Books Downloadable website (<http://listening-books.lib.overdrive.com>).
- Click 'add to basket' and, if you are happy with your choice, 'proceed to checkout'. You will then be prompted to enter your username and password.
- Once you have done this, you can review your choice, alter the lending period and see how many titles you currently have checked out. Please note, if you don't alter the lending period it will automatically default to 14 days. You cannot return an audiobook earlier than the lending period states.
- Click on 'confirm checkout' and then the 'download' button. The first time you download an audiobook you will be required to add the OverDrive Media Console to your computer. If needed, please see the OverDrive help pages for further details on the Downloadable website.
- Follow the simple instructions to download the audiobook. If you would like to transfer the audiobook to a personal device, such as an iPod, use the 'transfer' button in the OverDrive Media Console.
- The audiobook will automatically expire after your chosen lending period, when you will be free to replace it with another download of your choice. You can do this as many times as you like throughout the course of your membership!
- You are legally obliged to delete the title from any personal device you may have transferred it to when it expires on your computer.
